## You are the Stars - New "Wall of Fame" and Family of the Month"

### Wall of Fame

All of us at Stamford Pediatrics are so proud of our patients and their families. If your child or family member was in the news or has an accomplishment to announce, please send us a copy or fax a copy (203-969-1271) to hang on our "wall of fame" board. We will have a board in each of our offices!

### Family of the Month

We have so many creative and talented children and parents in our practice. We would love to showcase their talents on our new "Family of the Month" boards. Each office will have a large corkboard which one family each month can decorate with any type of artwork or materials they choose. We would love to see artwork and projects from all ages. Anything which can be attached with push pins is acceptable. The sky is the limit! The display can be as simple as finger paintings or as elaborate as photographs, collages or poetry. We will feature your family on our new Stamford Pediatrics website the month your display is in the office. Please contact Cobi Bruggeman in the Stamford office if you are interested.

STAMFORD PEDIATRIC ASSOCIATES

*Check out  
our new and  
improved  
website!*

We have made many NEW improvements to [www.stamfordpediatrics.com](http://www.stamfordpediatrics.com). It is loaded with useful information including dosing charts for commonly used over the counter medications, medical information and advice, and links to numerous websites that we believe are valuable resources for additional information. You may find that all of your questions can be answered right there!

### Update on Dr. Durica

Stamford Pediatrics is sad to report that due to medical reasons Dr. Durica will not be able to return to the practice of medicine in the near future. He hopes to return to practicing medicine when his health permits. Dr. Durica would like to thank everyone for their kindness, concern and best wishes. Dr. Jon will be missed by everyone. If your family receives notification from your insurance carrier regarding Dr. Durica's withdrawl from your insurance panel, simply change your primary care provider to one of the other physicians in our group.

### SPA Welcomes Dr. Andrew Hart

I am very excited to be joining Stamford Pediatrics as of late May 2008. I was born and raised in New York City, attending Trinity School and the Bronx High School of Science. Like all members of my family, I attended one of the SUNY schools for college where I majored in Economics. I spent six very informative and educational years in the world of business before finding my true calling in Pediatrics.

After attending the Sackler School of Medicine, I completed my pediatric training at North Shore University Hospital in Long Island. Because I enjoy teaching, I initially worked training medical students and residents as an Assistant Professor of Pediatrics at Schneider Children's Hospital at Long Island University Medical Center. For the last seven years, I have worked in private practice in New York City and Long Island. I have a special interest in Nutrition/Obesity/Fitness counseling. I truly love being a pediatrician and have often been told by my patients that my love of my work comes through to them and makes their visits more enjoyable.

My fiance, Audra, and I are looking forward to moving to Stamford. We have heard nothing but great things about the area and are excited about being part of the community for many years to come. We enjoy hiking, cooking and spending time with family and friends.

### An Office for All Ages

The teens/tweens have spoken and we have listened. During the next six months we will be repainting and sprucing up the Stamford Office. We will be creating some exam rooms with more "age neutral" decorations.
