

## FLU VACCINE UPDATE

---

Due to the overwhelming response to our most recent Flu Clinic dates, all of the clinics are now fully booked. We only received a limited amount of vaccine and we are doing the best that we can to accommodate our families.

We have been promised by the vaccine manufacturer that we will be receiving more flu doses in November. Due to the erratic nature of flu vaccine delivery this season, there are no guarantees on when the vaccines will arrive in our office or how many doses we will receive in any given shipment. Please keep in mind, we placed our order for flu vaccine in January of 2009.

If you were unfortunate enough to not get into one of our clinic dates, we understand your frustrations and apologize for the inconvenience.

**If you do not want to wait for our November shipments to arrive,** we encourage you to get your children vaccinated at one of the local hospitals, pharmacies or urgent care centers.

Again your frustrations are ours as well and we are working diligently to accommodate everyone's needs.

We will continue to keep you informed with the latest information as it becomes available to us.
