Dear Patients and Families:

Thank you for the opportunity to be your pediatrician. It has been a pleasure getting to know you and your family and so many wonderful families in our community. You all have had a positive impact on my life, and I'm hopeful that you have found my services to be beneficial.

I am writing to let you know that as of May 20th, 2014 I no longer will be working as a primary care pediatrician at Stamford Pediatric Associates. I have been honored to serve our community along side some of the best doctors in Lower Fairfield County. I sincerely believe that in my absence Stamford Pediatric Associates will remain the best choice for your children's primary care.

As for me, I will no longer be practicing pediatrics as I have been in the past. I plan to stay active in the medical community and in our local community as well. It is my intention to pursue additional education in health care policy while I continue to explore how I can make a meaningful impact in our community and our country.

It has been an incredible experience working with your family and most of all I will miss our interactions. I have shared in the joy and challenges for which you have sought my expertise and have felt privileged to be included in so many milestones.

Please know that you are in great hands moving forward and that I wish you and your family continued health and happiness. Stamford Pediatric Associates will follow up with you soon to help you with an introduction to a new primary care doctor.

With gratitude,

Jamie Roach Murray
